- Endpoint Management

Security

- Identity Management
- SSO
- SPF
- DKIM
- DMARC
- Endpoint Security
- Security Compliance

Automation & Scripting

- Power Automate (workflow automation)
- Python (API integrations)
- Bash scripting
- GitHub Pages hosting

Networking

- TCP/IP
- DNS
- DHCP
- Printer Troubleshooting
- Network Troubleshooting

IT Service Management

- Freshservice (ITSM)
- Incident Management
- Service Request Management
- Vendor Coordination
- Technical Documentation
- User Support
- SLA Awareness
- Root Cause Analysis

PROFESSIONAL EXPERIENCE

Mondia – Dubai Internet City

IT Support Engineer

Jan 2025 – Present

- Deliver Tier 2/3 IT support across Windows, macOS, Microsoft 365, Azure AD, and enterprise cloud platforms, ensuring timely resolution of incidents while maintaining high service quality.
- Serve as the primary IT point of contact between business stakeholders, infrastructure teams, and external vendors to ensure efficient service delivery and issue resolution.
- Coordinate with external technology vendors to resolve service issues and maintain operational continuity.
- Administer identity lifecycle management, user provisioning, access policies, and application integrations using Microsoft Entra ID.
- Support secure authentication and identity services through SSO and role-based access management across enterprise applications.
- Assist DevOps and SysOps teams with **group management, access provisioning and identity troubleshooting**
- Help configure **SPF, DKIM and DMARC** for corporate email security
- Enroll, configure and secure endpoints using **Microsoft Intune**
- Administer and maintain business-critical internal systems, ensuring reliable access and system availability for end users.

Key Achievement

- Built a **custom Python automation** that synchronizes user profile data between **Slack and Azure AD using APIs**, significantly improving identity data accuracy prior to SCIM rollout.

Mondia

Junior IT Support

Jan 2024 – Dec 2024

- Supported organization-wide migration from **on-prem Active Directory to Azure AD**
- Assisted with rollout and administration of **Microsoft Intune MDM**
- Administered **Microsoft 365 and Exchange Online** including email troubleshooting
- Created **Power Automate workflows** to automate **travel and expense approval processes**, reducing manual processing time
- Collaborated with external vendors and internal teams to ensure stable operation of enterprise platforms and timely resolution of service requests.
- Delivered responsive technical support to executives and business users, maintaining high customer satisfaction in a fast-paced corporate environment.

Mondia

IT Intern

May 2023 – Dec 2023

- Set up and configured laptops for new employees (Windows & macOS)
- Managed **Active Directory user accounts**
- Supported **Teams meeting rooms, printers and office IT infrastructure**
- Logged and resolved incidents using **Freshservice**
- Assisted with basic networking tasks including **Ethernet cable crimping and troubleshooting**

PROJECTS & PRACTICAL EXPERIENCE

Personal Microsoft Tenant & Domain

- Own and manage a custom domain with **SPF, DKIM and DMARC** configured
- Set up **email authentication and secure mail flow**
- Hosted website using **GitHub Pages**
- Deployed and managed a WordPress server

Identity & Automation

- Built **Python-based API integration** between Slack and Azure AD
- Created Power Automate workflows for business process automation

Systems & Security Practice

- Linux usage, SSH, Bash scripting

Professional Strengths

- IT Service Delivery
- Stakeholder Communication
- Incident & Problem Resolution
- Vendor Coordination
- Customer Service
- Process Improvement
- Cross-functional Collaboration
- Prioritization
- Time Management

CERTIFICATIONS

- **CompTIA A+**
- **CompTIA Network+**
- **CompTIA Security+**

EDUCATION

BSc Information Technology

Amity University Dubai – Dubai, UAE

November 2022

- Published paper in **IEEE**
Redefining the Risks of Kernel-Level Anti-Cheat in Online Gaming
<https://ieeexplore.ieee.org/document/9566108>

ADDITIONAL

- Strong interest in **cloud security, digital privacy, and offensive security**
 - Experienced in working under pressure and in team-based environments
 - Continuous learner in **systems engineering and cybersecurity**
-
